

Dear Beachside Residents,

As many of you are aware this past summer we upgraded the gate structure at the entrance of Beachside to provide additional security to the community. The gate is fully operational now. We are planning on closing it 24/7 starting tonight, Tuesday, September 24th.

How's that affect your experience?

- Those of you with cars will need to have their card ready to tap and activate the gate to open.
- If you have guests who have cars, you will need to meet them at the gate to let them in. Our staff will not be opening the gates for your guests. You must take responsibility for them and let them in yourself with your card.
- If you order food, you will need to meet delivery people at the gate to receive your food. They should not be given access to the Beachside Complex
- When utilizing the bus and shuttle services you will need to use the pedestrian gate at PCH. This gate is not currently locked but once we get the card tap activated, it will also be closed all the time similar to the pedestrian gate on Clark Ave.

We do have the ability to open the gate remotely for the service center. This is only for **official** deliveries for mail, FedEx, etc.... Your guests and or food delivery will not be granted access from the service centers. Only mail, package delivery, and services for the dining hall will be granted remote access.

This is a new process and will take some time to get used to the new function of the gate, but this is to assure your safety. Please be patient as we all adjust to this new security measure at Beachside. Once the card swipe on the PCH pedestrian gate is fully operational, Beachside Campus will be physically secured to only those with activated identification cards.

Thank you,

Housing and Residential Life
